Subject: Bethpage OU-2

Hi Henry. I tried to call you this afternoon, but unfortunately you weren't at your desk. Here's a brief summary of what I would be interested in discussing when you have the chance:

(1) ONCT Effectiveness Evaluation for OU-2. We looked at Arcadis' report, and we aren't comfortable that it provides a sufficient amount of information to conclude the effectiveness of the ONCT. We are not doubting its effectiveness, we are just saying that the report doesn't provide enough information to make this conclusion, e.g. perhaps the sort of data we are looking for can be found elsewhere. Perhaps we can talk next week to discuss some of the details. Have you or anyone from your office provided comments to NG on that report?

(2) Status of work being done by Contractor for 'Saladino Law'. The last time I touched base with you, DEC had given the contractor a list of items to review. Do you have a timeframe of when the contractor will be reviewing the material and preparing a report?

FYI, our management will be participating at a meeting on Monday with the water districts as well as Navy, Northrop-Grumman, and management of your office.

Regards,
-Carol-
